

# BACT/ALERT® BLOOD CULTURE SOLUTIONS

# Blood culture analysis is a critical step for detecting and managing sepsis, a medical emergency.

Sepsis is a complex clinical syndrome and is the body's systemic inflammatory reaction to infection. The body cannot fight the infection alone, and to defend itself requires the administration of the appropriate antimicrobial treatment.

bioMérieux has best-in-class blood culture solutions for your patients and for your staff, with fast, accurate results to support insightful decision-making.

# **BACT/ALERT® VIRTUO®**

VIRTUO, the first fully-automated blood culture system, will help you refine and redesign your laboratory workflow to maximize efficiency, all while providing impactful clinical results.

# BACT/ALERT® 3D

BACT/ALERT 3D is a flexible, modular blood culture system that is ideal for smaller labs. Combine the 3D with FAN PLUS media and MYLA® for an accurate, insightful blood culture solution.

# **BACT/ALERT® FAN® PLUS**

FAN PLUS is the solution when advanced media is needed for blood and sterile body fluids. With the capacity to neutralize a broad array of antimicrobials and 24-hour delayed entry capability, FAN PLUS will change the way you detect microorganisms.

# **Clinical insights you can trust.**

Results up to **20% faster**<sup>4</sup> — move onto ID/AST testing

Receive **real-time notifications** as soon as results are available

Colorimetric detection technology is more **predictable & stable** than other technologies<sup>5</sup>

Comprehensive reporting & analytics provide the information you need for **clinical success** 

VIRTUO® streamlines your blood culture workflow from start to finish to provide efficient and actionable results.

# 2012 08.3 | Market

# Rethink your lab's workflow

- Automated loading system can be loaded by any staff member - position for 24/7 access
- · Works for a core facility or a decentralized lab

# **Reduce hands-on time thanks to automated features**

- 80% time savings for loading bottles<sup>6</sup>
- 100% time savings for negative bottle management<sup>6</sup>
- 60% time savings for positive bottle management<sup>6</sup>

# Receive real-time data & actionable insights

- Automated blood level detection\* eliminates manual tracking
- Automated scanning & full traceability provide access to data 24/7

# bioMérieux is here for you with award-winning support and service.

As a world leader in the field of in vitro diagnostics, bioMérieux provides best-in-class customer service and support using our integrated approach - Diagnostics, Advanced Analytics, and Consultancy.

# Won 3 out of 3 Industry "Best Of" awards for Blood Culture in 2018, 2019, and 2020!

# **Technical Support Center**

First point of contact for customers who have a question

4.9/5 Customer Satisfaction Rating7

Provide front-line telephone support 24/7

Resolve 82% of inquiries over the phone8

Secure remote troubleshooting and software updates through VILINK®

# **Field Applications**

Provides on-site training and technical support to help ensure optimal use of bioMérieux instruments

4.9/5 Customer Satisfaction Rating<sup>7</sup>

All team members are degreed Medical Technologists or Microbiologists

**iii** More than 40 Field Application Specialists across the U.S.

# **Order Fulfillment**

Finalizes and implements new contracts and satisfies orders for existing customers

★ 4.9/5 Customer Satisfaction Rating<sup>7</sup>

24/7 ordering available through bioMérieux DIRECT and EDI

# **Field Service**

Trained on all bioMérieux instruments to keep your lab up and running

4.9/5 Customer Satisfaction Rating<sup>7</sup>

Available for on-site support 7 days a week

95% first time fix on site8

More than 90 Field System Engineers across the U.S.

## Lab Integration

Supports middleware integration and remote service connectivity for bioMérieux devices

5/5 Customer Satisfaction Rating<sup>7</sup>

Specialties in IT Security, LIS Integration and Project Management

More than 25 specialized team members

### Service Sales

Services ranging from a la carte to fixed price service agreements to optimize instrument performance and minimize downtime

Automated PM scheduling

Proactive Renewal notifications

When you invest in bringing our systems into your lab, you can rely on a team of more than 300 award-winning application, engineering, and customer service specialists. Learn more about our Total Service Solutions at go.biomerieux.com/services.
